WELL-KNOWN COMMIS-SION MERCHANT FEELS BETTER IN EVERY WAY

Swelling and Pain Gone and He is Stronger

I want to testify that Andes has done me a world of good, was the grateful statement of C. K. Asher of Ashland, Ky., engaged in the commission business in that city.

"For five years I suffered untold agonles on account of rheumatism in my lower limbs, especially in my feet, which would swell up so I could not wear my shoes. Often I just simply had to lay down and quit work.

"Andes Oil has taken all of that swelling away. The rheumatism pains have gone.

Prescription internal, I am physically better in every way.

"I feel stronger, healthier, more robust. I have a sharper appetite and enjoy my meals. In fact, all of my organs seem to be in better condition. I know that Andes is a great nerve tonic, vitalizer and builder, and especially fine during the hot summer months, it does away with that tired all-gone-feeling and makes you realize that life is worth living."

that life is worth living."

Mr. Asher's endorsement was given so the Andes man, and there is an Andes man at Cotter's Drug Store, he andes man at Cotter's Drug Store, he explains the great reconstructive tonic, and tells how it should be taken and the results that may be expected from its use. Mr. Asher's statement is but one of more than 200,000 of grateful men and women have told of the benefits of Andes.—

Andes Prescription so highly recommended by C. K. Asher of Ashland, Ky., is now on sale in Punta Gorda by Seminole Pharmacy, the exclusive agents. (Advertisement)

Trees and Plants Must Have Phosphates It's Not in the Soil, It's in NATURSOWN

Each tree in every grove and each plant in garden or field must have a certain amount of phosphorus. Citrus and vegetable growers know this statement to be a fact. Most soils are deficient in phosphorus, therefore, this plant food must be supplied. The question is which is the most efficient and economical method.

NATURSOWN Supplies All Needs

A few years ago the grower or farmer had but one recourse-the commercial product known as acid phosphate. Today, however, persistent enterprise and improved machinery have brought about the reduction of raw phosphate to particles so fine that the farmer can do his own acidulating in the soil.

NATURSOWN is a high grade phosphate, which, because of its thorough pulverization and its 32 per cent phosphoric acid content, provides trees and plants with all the phosphorus required.

Growers Have Obtained Results

In experiments made at the Maryland experiment station, it was found that raw phosphate produced higher total acreage yields than acid phosphate, and at less than
